Microlink Information Technology, Addis Ababa

2020 – 2023 | Addis Ababa, Ethiopia

Graduated with **GPA 3.83**, focusing on **core areas of computer science** and practical software development.

📁 PROJECTS

Ethiovibe

Ethiopian Clothing E-commerce Website

02/2025 – 06/2025

Built with **React, Node.js, and Redux**, Ethiovibe is a modern Ethiopian clothing e-commerce platform featuring a **responsive and elegant frontend**, a **comprehensive admin dashboard** for managing products, orders, and users, and **complete e-commerce functionality** including shopping cart, secure checkout, and user authentication.

Lekene

A Modern Event Website

Built with **Laravel and Inertia.js** for the backend and **Blade templates** for the frontend, Lekene is a **custom client project** featuring a **unique and modern UI, SMS payment integration**, and a **seamless customer-focused experience** for event management.

Site.et

A CRM Connected with Odoo

09/2025 – 2024

Site.et is a modern Customer Relationship Management (CRM) platform designed to seamlessly integrate with **Odoo ERP**. The project leverages a powerful tech stack — **Laravel, React, and MySQL** — to deliver a responsive, scalable, and user-friendly CRM solution tailored for businesses.

Key Features:

- **Odoo Integration:** Deeply connected with Odoo ERP, ensuring smooth synchronization of data and workflows.
- **Custom Odoo Addons:** Developing and deploying custom modules to extend Odoo's functionality to meet unique business requirements.
- **Modern Tech Stack:** Laravel for backend services, React for a dynamic UI, and MySQL for reliable data storage.
- **Flexible Architecture:** Designed for customization, scalability, and easy integration with third-party services.

Goal: To create a professional CRM system that combines the flexibility of modern web technologies with the robust business logic of Odoo — tailored to our business needs and future growth.
