

TIZAZAB AYANA

Full-Stack Software Developer

Results-driven Full-Stack Developer with 2+ years of professional experience building production-grade web applications and ERP integrations. Proficient in Laravel, React, Next.js, Node.js, and Odoo customization. Proven ability to learn new technologies rapidly under pressure — picked up Odoo from zero and delivered custom modules in a professional team environment. Strong track record across client projects, CRM platforms, e-commerce, and ERP systems.

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Jan 2025

Current Company, Addis Ababa, Ethiopia

- Leading development of web applications as the strongest technical contributor on the team
- Trusted with complete ownership of projects end-to-end; being considered for Team Lead role

Odoo Developer

Aug 2024 - Dec 2024

Grace ERP, Addis Ababa, Ethiopia

- Joined a high-performing team and delivered complex Odoo customization tasks immediately upon onboarding
- Developed and deployed custom Odoo modules; tackled challenging tasks that impressed senior engineers
- Operated within a well-structured, professionally-run engineering culture with a brilliant technical CEO
- Left voluntarily due to compensation constraints, not performance

Intermediate Full-Stack Developer

Apr 2024 - Jul 2024

Fanaye, Addis Ababa, Ethiopia

- Built a large-scale spare parts ERP for a Chinese company using Laravel, React, and Redux
- Worked in a high-pressure, fast-paced environment that developed strong work ethic and delivery habits
- Collaborated with engineers more senior and experienced, accelerating personal growth significantly
- Adopted the habit of completing tasks proactively without waiting to be asked — a trait carried forward

Frontend Developer

Feb 2024 - Mar 2024

Alet Technology, Addis Ababa, Ethiopia

- Delivered frontend features using Angular — a framework learned on the job with no prior experience
- Completed assigned tasks so efficiently that management ran out of work to assign
- Demonstrated ability to pick up any technology quickly and contribute value from day one

Junior Full-Stack Developer

Sep 2023 - Jan 2024

Recite Lab (under 1888EC), Addis Ababa, Ethiopia

- Joined one of Ethiopia's most respected tech companies (1888EC) as part of the Recite Lab team
- Contributed to Site.et — a CRM platform deeply integrated with Odoo ERP, built with Laravel, React, and MySQL
- Worked on project management modules, contact management, and custom Odoo addon development
- Learned Odoo from scratch under production pressure, integrating it into an existing professional codebase
- Also delivered Lekene (lekene.et) — a live client-facing event management platform with SMS payment integration

Full-Stack Developer (Intern 'Full)

Jan 2023 - Aug 2023

Omishtu Joy, Addis Ababa, Ethiopia

- Started as an intern building a food recipe website (React, Node.js) and an Airbnb clone (Laravel)
- Promoted to full developer after demonstrating strong Laravel skills through the Airbnb clone project
- Delivered a pharmacy management system in Laravel as the primary full-time project

EDUCATION

Computer Science

Jan 2020 - Jan 2023

Microlink Information Technology College, Addis Ababa, Ethiopia

- Graduated with honors. Strong foundation in software engineering, data structures, algorithms, and systems.

SKILLS

Backend

- Laravel (primary), Node.js, RESTful APIs, Odoo custom modules

Frontend

- React.js, Next.js, Inertia.js, Tailwind CSS, Angular (professional project)

Databases

- MySQL, PostgreSQL, MongoDB

DevOps & Tools

- Git, GitHub, Docker, Odoo containers, Linux

ERP

- Odoo (custom modules, inventory, multi-tenant setup, ERP integration with Laravel/React)

WEBSITES & SOCIAL LINKS

GitHub

Portfolio

VOLUNTEER

Software Developer & Network Administrator

Jun 2020 - Dec 2022

Ethiopia Military Academy, Addis Ababa, Ethiopia

- Volunteered (later formalized) as developer, network admin, and teacher for the academy's library system
- Gained strong presentation, communication, and confidence skills in a disciplined professional environment
- Fulfilled a 6-month work experience requirement for master's scholarship applications

PROJECTS

Site.et — CRM Platform

undefined, Ethiopia Addis ababa

Enterprise CRM & Odoo Integration System

Technologies: Laravel, React, Inertia.js, MySQL, Odoo ERP

Developed an enterprise CRM system with deep Odoo ERP integration for seamless data synchronization, workflow automation, and custom business modules. Designed a scalable architecture to support future third-party integrations and multi-business deployment.

Lekene — Event Management Platform

Lekene Event Planning Platform

Link: <https://lekene.et/>

Technologies: Laravel, Inertia.js, Blade, SMS Integration

Developed a live production event planning platform with SMS-based authentication, payment integration, and dynamic booking features. Successfully deployed and maintained the platform to support real client operations and user management workflows.

Spare Parts ERP

ERP Management System

Link: <https://erp.learnica.net/>

Technologies: Laravel, React, Redux, MySQL

Developed a large-scale ERP system for a Chinese client featuring inventory management, packaging management, order tracking, and advanced administrative tools to streamline business operations and improve workflow efficiency.

Noora Website

Apr 2026 - May 2026

Addis Ababa Ethiopia

Developed a full-stack resort management system with integrated booking, dynamic pricing, and payment processing, enhancing operational efficiency and guest experience.
